

BEDRANE SIDALI

Computer Engineering Student | Full-Stack Developer | Cybersecurity

ns_bedrane@esi.dz • +213 793790842 • Algeria • github.com/Sid-git399 • linkedin.com/in/bedrane-sidali-b67075382

PROFILE

Computer Engineering student and Full-Stack Developer with practical experience in software development, cybersecurity, and enterprise technology environments. Skilled in building secure web and mobile applications, REST APIs, database systems, authentication workflows, and security monitoring platforms. Interested in financial technology, cybersecurity, cloud technologies, and large-scale digital systems, with a strong focus on learning and delivering reliable software.

EDUCATION

Engineering Degree in Computer Science — École Nationale Supérieure d'Informatique (ESI), Algiers
Computer Engineering studies • 2026

PROFESSIONAL EXPERIENCE

IT / Software Development — SOFICLEF

Algeria • 2026 – Present

Contributing to software and digital-platform development, including full-stack features, data management, authentication, secure workflows, and multilingual product requirements.

IT Internship — SONATRACH

Arzew, Oran, Algeria • 2026

Gained professional exposure to enterprise IT environments and technology operations within a major industrial organization.

Internship Experience — BNP Paribas

Professional banking environment

Developed exposure to enterprise technology and professional workflows in the banking sector, strengthening interest in secure financial systems and digital services.

PROFESSIONAL EXPOSURE

Banking & Enterprise Technology: BNP Paribas • Société Générale
Exposure to professional banking environments and an interest in secure, scalable financial technology.

SELECTED PROJECTS

SOC Insight | Cybersecurity • Python • Flask • MITRE ATT&CK;

Security Operations Center platform covering IOC management, threat hunting, incidents, rule-based analysis, and report generation.

AgentDesk | Full-Stack • React/Vite • Node.js

AI-agent workspace with a React/Vite frontend, backend agent API, tool-based workflows, and local data management.

Bladna App | Mobile • React Native • Expo • Appwrite

Algeria-focused mobile learning and advice application with authentication, progress tracking, quizzes, profiles, and parent-space functionality.

TECHNICAL SKILLS

Programming	Python, Java, C, JavaScript, TypeScript, SQL
Web & Mobile	React, Next.js, Node.js, React Native, Expo, HTML, CSS, REST APIs
Cybersecurity	SOC concepts, IOC analysis, MITRE ATT&CK, threat hunting, security monitoring
Databases	PostgreSQL, SQLite, Prisma, Appwrite
Tools	Git, GitHub, Docker, Vite, VS Code, IntelliJ IDEA

TRAINING

AWS Training — ETIC • Cloud and AWS fundamentals
